<b>Standard size</b>	20.12 m (66.0 ft)	7.32 m (24.0 ft)	60,000 kg (130,000 lb)
<b>Larger versions (Maxi-Mexeflote)</b>	38.41 m (126.0 ft)	7.32 m (24.0 ft)	120,000 kg (260,000 lb)
	38.41 m (126.0 ft)	12.2 m (40 ft)	180,000 kg (400,000 lb)

## Mexeflote pontoons

Mexeflote modular pontoons have proven to be a versatile solution for working over water. They are road transportable, shallow draft, each float capable of supporting substantial loads. They can be assembled to create a wide variety of different sized platforms, from a 30m x 12.5m crane barge to a four pontoon configuration (measuring 11m x 6m) for site investigation works.

<b>Length:</b> 6.1 m	<b>Beam:</b> 2.5 m	<b>Depth:</b> 1.5 m
<b>Draft (Light):</b> 0.30 m	<b>Weight:</b> 5 tons
